Profile

Self-starter DevOps Engineer with 2.5 years experience in independently managing small-scale infra setup. I have an acute interest in anything DevOps and am a firm believer in the idea of learning by doing.

Experience

Geomitra Solution LLP, Nagpur

DevOps Engineer 2021-Present

- Experienced in Devops tools such as GIT, Github, Jenkins, Maven, Terraform, Docker.
- Single-handedly managed the overall infrastructure of the company
- Reduced the time taken for production deployments (83% quicker) by removing manual effort using bash scripts
- Implemented containerization via Docker which resulted in consistent and efficient environment management for development and testing
- Deployed an automated CI/CD pipeline for builds using Jenkins
- Used Terraform modules for include AWS resources, VPC, Subnet, Security group, Load balancer, Auto scaling group.
- Configure Route53 Domain to resolve IP-to-name.
- Created java services and configure nginx in ec2-instance
- configured VPC Peering between MongoDB ATLAS and AWS
- Created s3 buckets in AWS to store files, scheduled backups to S3 with cronjob using bash-script
- Headed process enhancement initiatives by implementing changes, standards, and controls - Enforced branch discipline on Git to remove the problems associated with developers releasing JARs from local machines
- Configuring networking like NFS, SAMBA, HTTP, SSH, DHCP.
