### Objective

To work in dynamic organization in the field of designing and development to explore new areas and obtain a position that will utilize my technical and interpersonal skills

### Professional Overview

3+ years of experience in analysis, design, development and enhancement of J2EE applications, automation and spring angular integration. Have exposure to multiple domains like insurance, automobile and construction. Skilled in planning and documentation. Good at debugging and locating application bugs and providing fixes. Have good understanding of multiple languages including C, C++, JavaScript, TypeScript, Html, XML and frameworks spring and angular

### Responsibilities

- Application programming and development
- UI design and development
- Database design
- Debugging application to locate issues and provide fixes
- Automation

### Technical Details

Programming Languages	- Java SE (J2SE), Java EE (J2EE), C, C++, Android
Web Scripting Languages	- HTML, JavaScript, TypeScript, CSS, jQuery, XML
Databases	- Oracle, MySQL
Frameworks	- Spring (Spring Core, AOP, ORM, Boot, Data JPA, Security, JDBC, MVC, REST) Angular
Operating System	- Windows, Linux
Tools	- Git, CVS, Jenkins
IDE	- Eclipse, IntelliJ

### Work Experience

<b>Perficient India Pvt. Ltd.</b>	Technical Consultant Mar 2020 - Present
<b>EbixCash Software Pvt. Ltd.</b>	Programme Analyst I July 2018 - Mar, 2020

## Projects

### 1. Caterpillar

Web application that supports Caterpillar's sales and support process for better user experience, enables the users to go through the latest industry equipment's, allow them to compare each with other based on prize, features, feasibility and provides the efficient deal to user. User can rent the equipment of need for their work (Heavy equipment, small machines, work tools and latest onboard technologies). It allows to get in touch with newest most efficient CAT models, ongoing offers and suitable deals. It allows the users to locate the nearby dealer and get the work done.

#### Responsibilities:

- Adobe core components development
- Writing JS for async page loading
- Worked on OSGI services, OSGI factory services
- Worked on Internationalization
- Writing tests with frameworks like Junit and Mockito
- Handle and manage client validations

### 2. Wholesale Fingertips

Web application that enables the wholesale providers to manage and keep track of their business at fingertips, It manages their products, client and the monthly sales with the clients. Keeps date wise track of each transaction with the customer and maintains full portfolio of the customer. Also allow to determine and monitor the sales (increasing or decreasing) to efficiently manage the business and relation with customer

#### Responsibilities:

- Study design document
- Design database
- Write spring controller and business classes
- Implement spring security
- Develop/produce REST API's
- Design the UI
- Debug the application to locate the issue and provide fixes

### 3. Data Aggregation Services (DAS)

Web application that receives data from various data providers in various file formats (txt, csv, xml etc.) parse them to csv files and dump to database. Fetch data from database, create SOAP request and forward to CRM application

#### Responsibilities:

- Study design document
- Design and implement database
- Parse files coming from data provider with custom classes or DOM or SAX
- Creating SOAP request
- Worked with SQL Loader to import CSV files
- Debug the application to locate the issues reported by QA and client

- Create pages with JSP, HTML, XML, XSLT as per business needs
- Unit test newly created module
- Communicate with members of team for system and regression testing

#### 4. Smart Office

CRM solution for investment and policy advisors that enables easy access and maintenance of customer and their insurance data. Helps to identify, manage and improve the profitability

##### Responsibilities:

- Modify the business classes to parse the coming XML request
- Extract data from XML and dump to CRM application
- Verifying the data in CRM app and provide successful response back to DAS

#### Education

Examination	Board/University	Institution	Year of Passing
BE	RTMNU, Nagpur	TGPCET, Nagpur	2018

#### Skills

- Good communication and presentation skills
- Knowledge of open-source tools and utilities
- Excellent programming and debugging skills
- Ability to understand project requirements
- Mentor/guide the new joiners

#### Personal Details

Father's Name	-	Akhilesh Prasad
Mother's Name	-	Sushila Prasad
Date of Birth	-	30 Nov 1996
Languages Known	-	Hindi, English, Marathi
