Akhouri Nishant Sinha

Java Developer

Dynamic Software Engineer & Certified Java Developer having 2 year's of experience in Java 8, Spring Boot, JUnit, Git, and Microservices architecture. Committed to delivering high-quality solutions through a passion for writing clean and maintainable code.

CORE COMPETENCIES

- ✚ Software Development
- ✚ Clean Code
- ✚ Debugging
- ✚ Scalability
- ✚ Problem Solving
- ✚ Project Management
- ✚ Agile
- ✚ Adaptability
- ✚ Innovation
- ✚ Client centric
- ✚ Time Management
- ✚ Interpersonal
- ✚ Analytical

TECHNICAL SKILLS

- ✚ Spring JPA
- ✚ Spring MVC
- ✚ Spring Rest
- ✚ HTML
- ✚ CSS
- ✚ Core Java
- ✚ SQL
- ✚ Java8
- ✚ GIT
- ✚ Angular
- ✚ Microservice
- ✚ DSA

PROFILE SUMMARY

- ✚ Accomplished and Results-driven Java developer with a solid foundation of 2 years' experience in Java 8, Spring Boot, JUnit, Git, and Microservices architecture.
- ✚ Recognized with Gracias Awards for efficiently resolving 80-90 Sonar issues in a single day, showcasing proficiency in debugging and code optimization.
- ✚ Holds certifications including Infosys Certified Java SE8, SE11, Spring Boot, Spring REST, Spring Microservices, AWS, CPQ Developer, and Angular, showcasing expertise in various domains.
- ✚ Having a proven track record of delivering high-quality software solutions under pressure and with minimal resources.
- ✚ Prioritize client satisfaction through a client-centric approach, delivering efficient and effective software solutions and collaborate closely with cross-functional teams to meet and exceed client expectations.
- ✚ Demonstrated adaptability by adopting evolving client requirements and incorporating feedback to enhance the final product.
- ✚ Leverage Java programming expertise, system engineering skills, and a detail-oriented approach to deliver robust software solutions that drive business growth and innovation.
- ✚ Possess excellent analytical, troubleshooting and inter-personal skills with proven ability in driving numerous coding enhancement, process development and cost savings initiatives during the career span

WORK EXPERIENCE

Feb 2022- Feb 2024: Infosys, Bhubaneshwar as Digital Specialist Engineer

Key Result Areas:

- ✚ Gathered and documented comprehensive client requirements for project clarity.
- ✚ Optimized RESTful APIs, ensuring high performance, scalability, and security in handling client-server communication.
- ✚ Developed robust backend APIs with Angular frontend integration for a cohesive user experience.
- ✚ Leveraged microservices architecture to design and implement scalable and resilient backend systems, enhancing maintainability in large-scale applications.
- ✚ Worked closely with UI/UX designers to ensure seamless integration into frontend interfaces.

EDUCATION

- ✚ Bachelor of Engineering |
University/College | 2021

CERTIFICATIONS

- ✚ Infosys Certified Java SE8
Developer Certification
- ✚ Infosys Certified Java SE11
Developer Certification
- ✚ Infosys Certified
SpringBoot Developer
Certification
- ✚ Infosys Certified Spring
Rest Certification
- ✚ Infosys Certified Spring
Microservices Certification
- ✚ Infosys Certified AWS
Certification
- ✚ Infosys Certified CPQ
Developer Certification
- ✚ Infosys Certified Angular
Certification

- ✚ Conducted thorough code reviews to uphold quality standards.
- ✚ Designed and implemented precise solutions aligned with client needs.
- ✚ Participated actively in Agile ceremonies, facilitating iteration and improvement.
- ✚ Provided regular project updates to ensure functionality meets client expectations.
- ✚ Adapted quickly to evolving client feedback, refining for enhanced performance.
- ✚ Managed project timelines and deliverables meticulously, including deployment schedules.
- ✚ Resolved technical challenges promptly throughout development stages.
- ✚ Conducted productive client meetings to refine objectives and functionalities effectively.
- ✚ Implemented automated testing for reliability and stability assurance.

Notable Highlights

- ✚ Worked for a client "KROGER" for SIRS Application and CF Refracting and "FEDEX".
- ✚ Designed and developed APIs that processed streaming data for Supplier Item Relationship, resulting in an incremental annual revenue increase of 8%.
- ✚ Strategically developed, monitored, and enhanced Spring Boot features to implement business logic, streamlining an internal application by 10%.
- ✚ Designed REST API for Vendor Facility Item Relationship to improve performance.
- ✚ Designed REST API for Viewing Comments and Preset Viewing Comments in Admin Tab.
- ✚ Designed REST API for Weekly Claim by DW Reports and Resolved Claims by Department Reports.
- ✚ Successfully conducted API design and development of RESTful services in 7 months, enhancing operations of the enterprise product in the business.
- ✚ Built web services with Spring Boot used by the customer-facing application, improving the average user's time on page by 2 minutes.
- ✚ Established, maintained, and developed extensive test coverage for all new features, reducing the number of customer complaints by 5%.
