SUMMARY

Experienced Java Developer with one year of hands-on expertise in designing, implementing, and maintaining Java applications. Proficient in Java SE/EE, Spring framework, and database management. Demonstrated ability to collaborate with cross-functional teams to deliver high-quality software solutions. Strong problem-solving and analytical skills, committed to staying current with industry trends and best practices.

SKILLS

Java V (1.8, 11, 17) Spring Boot Hibernate Spring MVC MySQL MongoDB OOPs Concept in java
Jhipster Technology React Windows 8, Windows 10, Ubuntu 20.04 Eclipse, IntelliJ, Postman, Notepad++, VS Code
Deployment

EDUCATION

Bachelor of Science:Garg P.G. College CGPA: 6 Jul 2017 - Jul 2020
Computer Science
Master of ComputerGurukul kangri (deemed to be) University CGPA: 8.5 Aug 2020 - Aug 2022
Application: Computer Applications

EXPERIENCE

Java Trainee Apr 2022 - Jul 2022
AntireSolutions, Mohali
• Actively participated in Java development projects, gaining hands-on experience in coding, debugging, and testing.
• Collaborated with senior developers to design and implement software solutions, contributing to the overall success of projects.
• Successfully completed [HR management Project (poc)] that showcased problem-solving skills and adaptability in a dynamic work environment.
Java Developer Jul 2022 - Present
RedBlink Pvt. Ltd, Mohali

PROJECTS

Media Leap Music Application

• The Media Leap Music Application is a music streaming application that allows users to listen to their favorite songs, create playlists, and discover new music.
• The application is designed to provide a seamless user experience with an intuitive interface and a vast library of songs.
• Technologies used in this project :-
Programming Languages: Java, JavaScript
Frameworks: Spring Boot, React
Database: MySQL

Code Conductor

- The CodeConductor Application is a web-based platform that provides a collaborative environment for software development teams.
- The application is designed to streamline the software development process by providing a centralized location for project management, version control, and code review.
- Technologies used in this project :-
 - Programming Languages: Java, JavaScript
 - Frameworks: Spring Boot, React
 - Database: MySQL

Shopping Cart Application

- Developed a comprehensive Shopping Cart Application to streamline the online shopping experience for users.
- The application allows customers to browse products, add items to their cart, and seamlessly proceed through the checkout process.
- It features a user-friendly interface, secure payment options, and efficient order processing.
- Technology: java spring boot. reactJs, mysql
- Tool: Eclipse ,Vscode

CERTIFICATIONS

- Certified in "BHARTIYA SANSKRITI GYAN PARIKSHA" and secured second position organized by Gayatri Teerth, Shantikunj , Haridwar.
- Certified in "NATIONAL SCIENCE DAY EXHIBITION" in College and secured second position.
