Full Stack Application Development (Frontend / Backend) | Java | HTML | CSS | Angular

Dedicated Full Stack Developer with over 2 years of experience in both backend and frontend technologies

PROFILE SUMMARY

- Experienced Full Stack Developer with a solid grasp of open-source projects and practical knowledge of REST APIs, along with a basic understanding of object-oriented programming (OOP) design patterns
- Involved in the **Software Development Lifecycle (SDLC)** from requirements analysis to coding, testing, and application maintenance
- Proficient in using **third-party APIs** and managing production deployments. Skilled in front-end, back-end, and UI design, with sound knowledge of **Angular** and **REST APIs**
- Successfully **completed client-assigned tasks**, leading to the acquisition of full-time projects from the same client
- Evaluated user needs and **software requirements** to determine project feasibility and scope for **optimal solutions**
- Skilled in application **design, technical support**, and integration of **third-party libraries**
- A forward-thinking professional with strong communication, analytical, and organizational skills

KEY SKILLS

Functional: Application Development & Maintenance | Project Execution & Coordination | Coding/ Designing / Debugging | Technical Documentation | Continuous Learning and Skill Enhancement | Agile & Scrum Methodologies | Quality Assurance | Performance Optimization | Version Control | Hibernate

Soft Skills: Adaptability | Critical Thinking | Empathy | Positive Attitude | Willingness to Learn

WORK EXPERIENCE

Full Stack Developer at Synchron (Aug'21 – Sep'23)

- Developed and maintained web applications, ensuring high performance, responsiveness, and scalability
- Collaborated with cross-functional teams to understand project requirements and implement solutions
- Wrote clean, efficient, and well-documented code; executed unit tests and integration tests to ensure the reliability of the application
- Performed code reviews to maintain code quality and consistency
- Identified and resolved bottlenecks and inefficiencies in the code and architecture
- Designed and developed user-friendly, responsive, and interactive front-end interfaces
- Ensured the use of best practices in HTML, CSS, Hibernate, and JavaScript for a seamless user experience
- Optimized web applications for maximum speed and efficiency
- Worked in an Agile development environment, participating in sprint planning, daily stand-ups, and retrospectives
- Maintained comprehensive documentation for code, APIs, and technical processes
- Effectively managed project tasks, timelines, and priorities
- Collaborated with project managers to ensure the successful delivery of projects
- Communicated technical information and project updates to non-technical team members and stakeholders

TECHNICAL SKILLS

- JAVA
- HTML
- CSS
- JavaScript
- Angular
- Hibernate
- Spring
- MySQL
- JDBC
- JPA

CERTIFICATION

- Certificate in Angular from Udemy (Apr 2023)

EDUCATION

- **Bachelor of Engineering (Computer Science & Engineering)** from Technocrats Institute of Technology & Science in 2020
- **12th** from L P Shahi College in 2015

PERSONAL DOSSIER

- Date of Birth : 22-07-1997
- Languages : English, Hindi
- Gender : Male
