WORK EXPERIENCE

NEO : Client - UBS

Aug, 2023 - Present

Senior System Engineer - Infosys, Pune

Description

NEO project is used to design and develop the solution to migrate SSE NG application to NEO framework. Overall objective is to replace the RMI calls that interact to business layers by REST APIs call.

Key Responsibilities

- Implementation of **RESTful APIs**.
- Implementation of **multiple DB connections, Junit test** cases for the code.
- Code and **performance optimization** of application.
- **deployment of application**

ISToolset : Client - UBS

Jul, 2021 - Jul, 2023

System Engineer - Infosys, Pune

Description

ISToolset is a Wealth Management domain Application that provides detailed Proposals for Wealthy clients as per their Risk/Rewards requirements. It also facilitates actual investment on the suggested proposal after approval. The purpose of this banking system project is to modernized big legacy **monolithic application (Wealth Management Application)** into a **microservices based architecture**.

Key Responsibilities

- Developed and consumed Spring Boot **REST APIs**.
- Implemented **parallel processing** for **Application Optimization**.
- Worked on **Stream API, Collection API, Executor API** etc.
- Worked on Junit test cases for backend and Jest test cases for frontend.
- Involved in **Code review** and **Sonar issues** to improve the code quality.
- **Bugs-Defects** fixed.
- Used project **Lombok** to avoid boiler plate code in POJO's.
- Improved **30% faster api** loading in refactor than legacy application.

Technologies

Java 8, Spring Boot, Spring Rest, Spring data JPA, JDBC, Spring Boot Security, JWT authentication, AOP, Swagger, Agile methodology, GitLab, db2, Oracle 11g, Maven, Lombok.

EDUCATION

Bachelor of Engineering | Computer Technology

Aug, 2016 - Nov, 2020

Kavikulguru Institute Of Technology and Science

Nagpur, Maharashtra, India

CGPA: **6.9**

XII | Science

Aug, 2014 - Jun, 2016

Shivaji Science Collage

Nagpur, Maharashtra, India

Percentage: **67.85%**

TECHNICAL SKILLS

Java SpringBoot MySql MongoDB Oracle
Hibernate JDBC ReactJS Jest HTML CSS
Junit SonarQube GitLab Docker Kubernetes
Intellij Eclipse
