🏢 PROFESSIONAL EXPERIENCE

Tata Consultancy Services

Application Developer

10/2021 – present | Noida, India

📁 WORK EXPERIENCE

Passport Seva Project

(Module 1.0)

10/2021 – present

- Designed and developed web applications using **Java/J2EE, JavaScript, Struts, and JSP**, significantly enhancing user experience and operational efficiency.
- Managed maintenance while effectively addressing new client requirements.
- Delivered solutions within specified timelines.

Passport Seva Project

(Module 2.0)

10/2021 – present

- Created an application from **scratch** using **Agile** methodology, resulting in a 30% increase in development speed and flexibility.
- Designed and developed **RESTful** microservices using **Spring Boot**, leading to a more modular and scalable system architecture.
- Utilized Maven for build management and tools like **SLF4J** and **Log4j** for **logging** and **debugging**, improving debugging efficiency by 20%.
- Conducted unit and integration testing using **JUnit**.
- Experienced in core Java **multithreading, collections, servlets, and JDBC**.
- Managed **CI/CD** processes using **Jenkins, Docker, and OpenShift**, streamlining deployment processes and reducing downtime by 40%.
- Used **Postman** to check the interaction & compatibility between **Micro-services** through **API call**.
- Implemented functionalities to ensure non-duplicate passports and send notifications via various channels.
- Implemented the Generic Notification functionality to send notifications to Applicants via Email, Text, and Post.
- Conducted code reviews, peer testing, and mentored new resources.

🎓 EDUCATION

B.Tech in Computer Science & Engineering

2016 – 2020 | Phagwara, India

Lovely Professional University

7.07 CGPA
