

**Vani Bobbepalli**  
**Experience: 3.2 Years**

**E-Mail:** 2017b.vani@gmail.com  
**Mobile No:** +91-9381431398

## Summary

- Having **3.2** Yrs. of IT experience in the field of Software Development on banking domain.
- Experience in developing Web based applications using Tomcat.
- Knowledge on all stages of Software Development Life Cycle (SDLC) And Agile model.
- Excellent problem-solving skills with a strong technical background and good interpersonal skills.
- Has the motivation to take independent responsibility as well as ability to contribute and be a productive team player.
- Good team member, positive attitude, and self-motivated, quick Learner, willing to adapt to new challenges and innovative technologies.

## Professional Experience

- Working as an Associate for **Cognizant Technology Solutions India Private Limited**, Hyderabad from Oct 2021 to till date.

## Educational Qualification:

- **B. Tech** (Computers) from **Tirumala Engineering College** Narasaraopet, **JNTU** Kakinada.

## Technical Proficiency:

**Programming Languages** : Java 1.8, J2EE, Hibernate, Spring, Spring Boot, Spring Cloud. Swagger, XML, Maven, Docker, Restful Web Service, Microservices, AWS (Amazon Web Services), OCP, Linux/Unix.

**RDBMS** : Oracle 10gs

**Operating Systems** : Windows10.

**Web Servers** : Apache Tomcat 7.0

**Tools or IDE's** : Eclipse, IntelliJ, Maven, Docker, GIT.

## Projects:

**Title** : **EPP DART**

**Product Domain** : Banking

**Client** : Discover

**Technology used** : Java 1.8, Spring Boot, Restful Webservices, Swagger, Microservices, OCP

**Server specification** : Apache Tomcat 9.0

**Database used** : HBase.

**Team Size** : 15

**Duration** : March 2022-Till date.

**Role** : Java Developer

**Description :**

ODS (Operational Data Store) is a database designed to integrate data from multiple transaction processing system, it supports both operational transaction processing that requires access to shared data as well as operational and near-term analytical reporting. The integration process of operational data includes data cleansing, redundancy resolution and business rules enforcement as well as balance and control processes. ODS is implemented Kafka, Storm and HBase.

**Responsibilities:**

- To understand customer requirements and developing the functionality specific. Business, Application and Presentation Logic and to integrate it with the product.
- Analysing the issues to find the problem and make necessary changes in the code to fix the issue.
